Water Resources Program

We recently submitted our application for surface water and received back a list of instructions that we needed to take care of. Hopefully we have answered your questions satisfactorily.

I had some questions and when I called today you were unavailable and I was referred to Harold Powell. I explained I need water before the 1 ½ to 2 year time frame and Mr. Powell suggested I apply for a temporary water permit in the mean time.

I want to apply for 50 gallons per minute. I want this pump system to give a very fast shot of water for our acre and then shut off.

If you have any further questions please let me know.

Ron Riggs

Re: Surface Water Applications (2) 431668

Your applications and checks No. 5876 and No. 5877 in the amounts of \$5.00 each are being returned for the following reasons:

Lot 1 Application

1. You will need to indicate the date your project will be completed.
2. Please review your answers to the questionnaire on Page 2. The question you will need to answer is "Do you own or have a controlling interest in more than 2000 irrigated acres within the State of Washington".
3. You will need to provide specific written driving instructions to your property on the attached Section Map page.

Lot 2 Application

1. You will need to indicate the date your project will be completed.
2. Please review your answers to the questionnaire on Page 2. The question you will need to answer is "Do you own or have a controlling interest in more than 2000 irrigated acres within the State of Washington".
3. You will need to provide specific written driving instructions to your property on the attached Section Map page.

You will retain your priority date of March 4, 1993, for both applications if you return your applications, checks and all the above-requested information by March 22, 1993.

In answer to your question as to the "process time" for these applications, the field examiner indicated that it may be 1½-2 years before he would be in your particular area again. Also, any permits

that might issue would be subject to the Wenatchee River instream flow requirements.

You may contact this office at (509) 575-2800 if you have any questions.

Sincerely,

Myria J. Autrey Johnson
